There is a 35 caliber (9mm) or less restriction, and no fully – automatic rifles are allowed. For use with the e-target system the bullet must be supersonic at the target 200 yards.

**Rules:** Rules for this match are available at the following web site:  
<http://thecmp.org/wpcontent/uploads/CMPGamesRules.pdf> with the following exceptions:

- Vintage Sniper rifles will compete in their own class (see the CMP Games Rules for Vintage Sniper rifle definition, basically, it is a Vintage Military Rifle with a period – correct scope).
- Any Rifle class will compete in their own class. Any Rifle means what it says, run what you bring if it's less than 35 caliber (9mm) or less and not full – auto.

Please remember this is a fun match, you won't win any money, and the point is to have fun and improve your marksmanship skills. Any rule questions will be settled by the Match Director or delegate.

This match will be held at the 200 yd line using the 200-Yard SR target. Ammunition can be commercial manufactured or handloaded safe ammunition, so bring your own ammo. No tracer, armor piercing or incendiary ammo please. For use with the e-target system the bullet must be supersonic at the target 200 yards.

**Handling of Firearms:**

*Handling firearms behind the firing line is not permitted. The handling of firearms is defined as anything a competitor does to operate the mechanism, shoulder, put a sling on, load, practice loading, insert a clip or magazine, or otherwise perform any action that would prepare the competitor to fire the firearm.*

*Adjusting or blackening sights, adjusting slings without putting them on the arm, or making minor adjustments to the firearm in the ready area or behind the firing line is not regarded as handling the firearm, and is permitted as long as an ECI remains inserted.*

*Competitors may load clips or removable magazines in the ready area (as long as they are not inserted in the firearm).*

*After competitors are told to carry their rifles and equipment to the firing line, they are permitted to handle their rifles on the firing line as long as the muzzle remains pointed up or downrange and an ECI remains inserted. After arrival at the firing line and prior to the start of preparation time, competitors may put a sling on and assume position with the rifle. Competitors may not remove the ECI, close the action or dry fire until the Range Officer announces the start of preparation time.*
